

## DAY 03

### API MIGRATION TO SANITY and INSERTING DATA TO FRONT-END FROM SANITY

#### Adjustments in Sanity Schema:

I reviewed the given schema with the schema I already created according to the requirements of my project.

#### Token and Keys placements:

Placed an API key, data set inside env.local

#### API migration:

Used the sanity keys and token in the migration.js

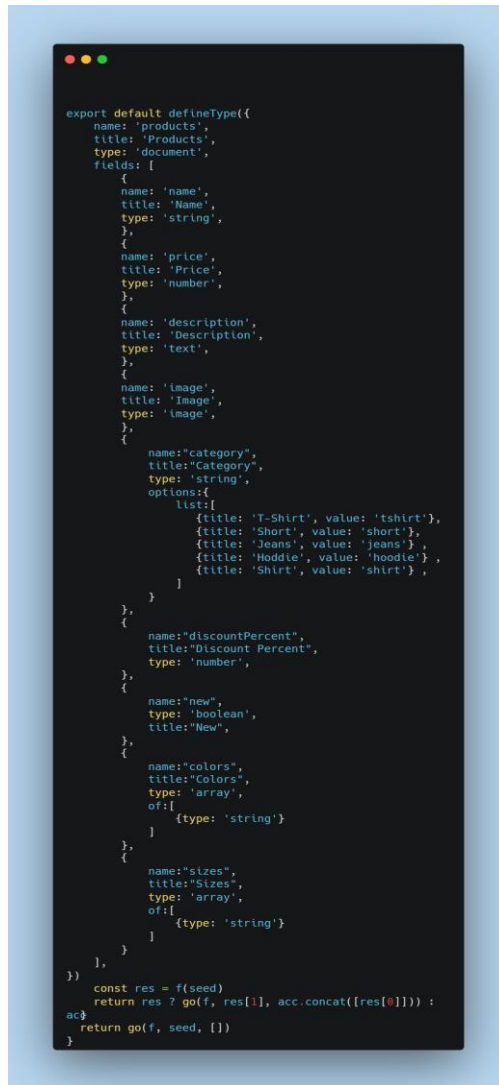

#### Final steps:

Fetches data to Front-end

By using GROQ query

And finally I have fetched the data from sanity and used it in my front-end

[illegible]

    name: Casual Green Bomber Jacket
    description: This stylish green bomber jacket offers a sleek and modern twist on a classic design. Made from soft and comfortable fabric, it features snap buttons and ribbed cuffs, giving it a sporty yet refined look. The minimalist style makes it perfect for layering over casual t-shirts or hoodies. Whether you're out with friends or just lounging, this jacket provides a laid-back yet fashionable vibe. Its muted green color adds a subtle, earthy tone
